

Homecoming Character Survival Kit

The things we own can shed light onto who we are. You are going to design a “survival kit” for one of the major characters from the novel. In this “survival kit,” include five items that you think that particular character absolutely could not live without. It is important to make sure that these items are specific to that character and appropriate for the time period/setting of the book. Use this sheet to list what you would include in that character’s “survival kit” and explain why each item belongs in the kit.

Book Author: _____

Character’s Name: _____

Why did you choose this character? _____

1. Item: _____

Explanation for why the character needs this item: _____

2. Item: _____

Explanation for why the character needs this item: _____

3. Item: _____

Explanation for why the character needs this item: _____

4. Item: _____

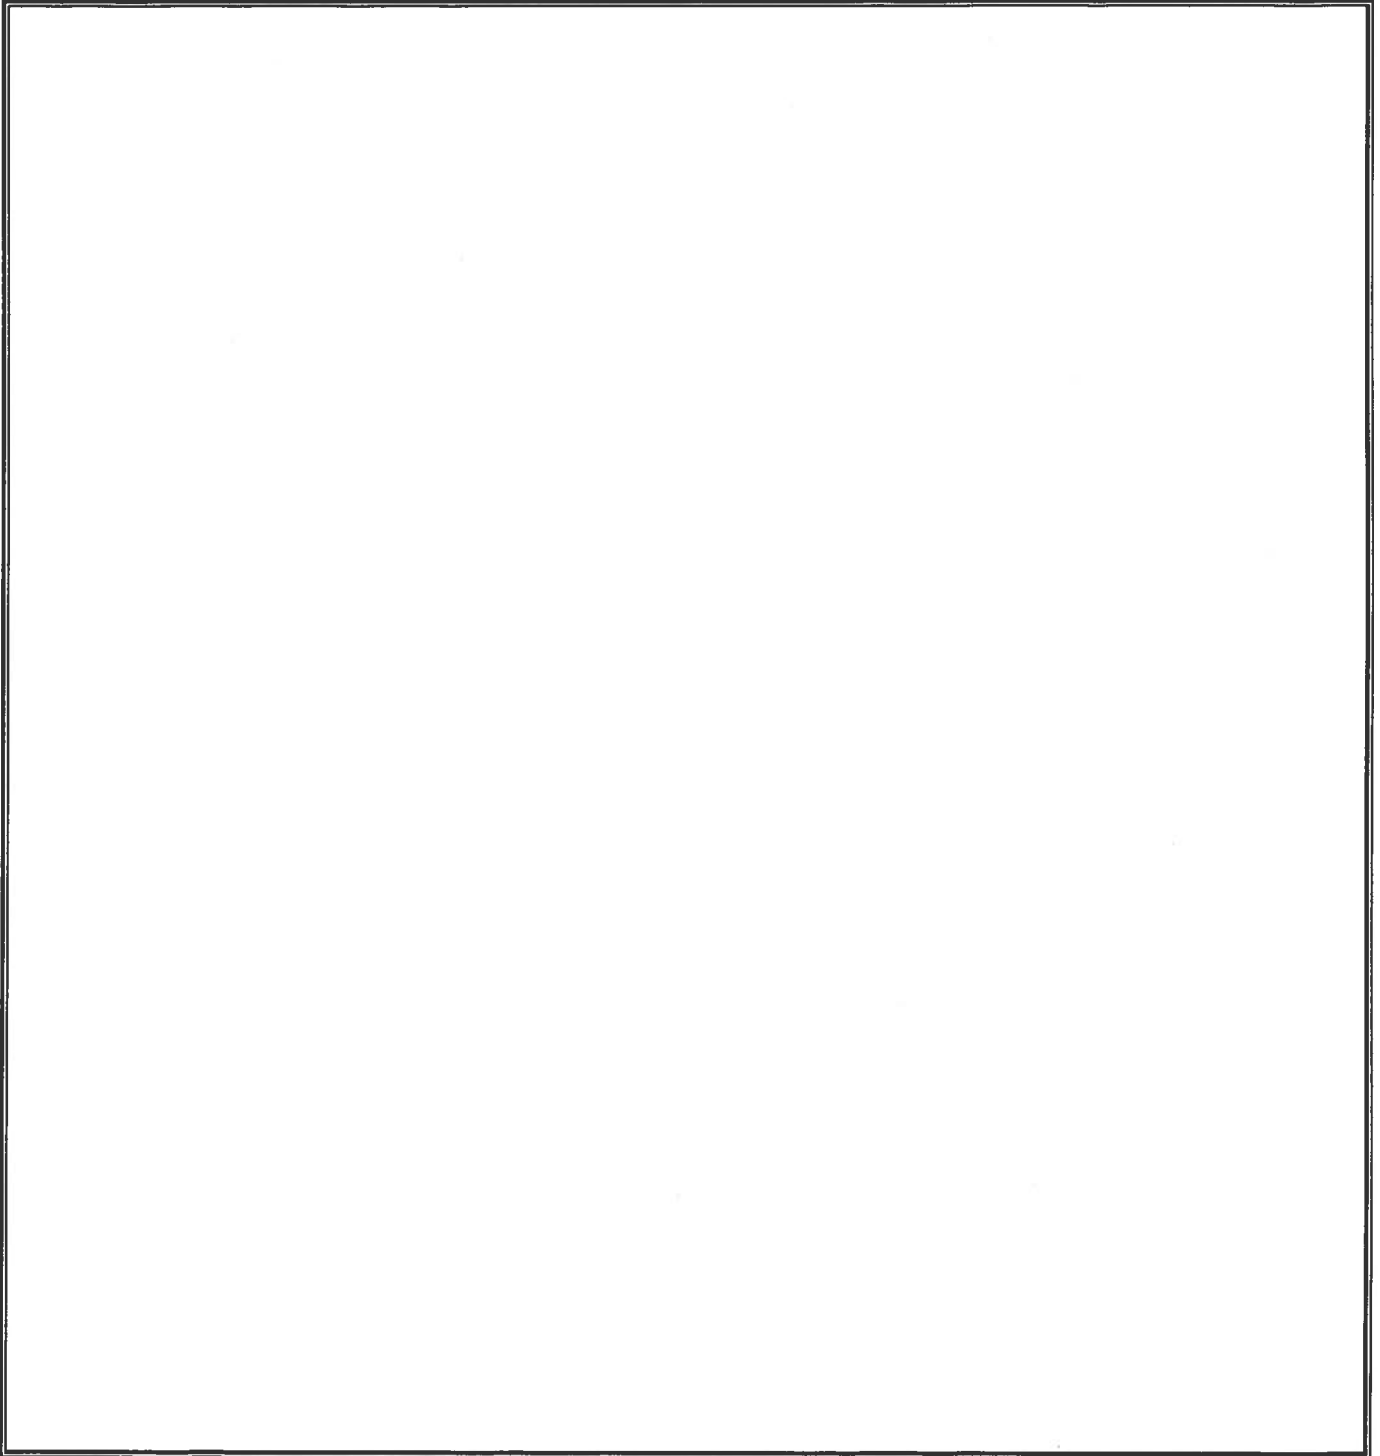

Explanation for why the character needs this item: _____

5. Item: _____

Explanation for why the character needs this item: _____

Homecoming In a Theatre Near You

Pretend that Homecoming will be coming out in theatres. Design a poster that advertises the upcoming film. Your poster must present and describe a main character, present and describe a key conflict in the plot, and explain why someone should see the film.

Homecoming Comic Book Page

Choose one chapter or section from the novel. Create a one page comic book that describes what happened. Use vivid colors and words or quotes from the book. Be prepared to share.

The image shows a blank comic book page template. It consists of six rectangular panels arranged in three rows and two columns. The panels are empty, intended for the student to draw and write their own comic strip based on a chapter or section from a novel. The layout is as follows:

- Row 1: A small square panel on the left and a large rectangular panel on the right.
- Row 2: A large rectangular panel on the left and a medium-sized rectangular panel on the right.
- Row 3: A small square panel on the left and a large rectangular panel on the right.
